**Equipment Rules:**

**Middle School Division:** Only take-down recurve bows with bolt-on limbs are allowed from any available manufactured product line. Maximum marked limb weight is 24lbs for MS.

**High School Division:** All World Archery legal recurve risers are allowed. Maximum marked limb weight is 28lbs for HS.

While actual draw weight is dependent on the archer’s draw length, the marked poundage may not exceed 28lbs for HS and 24lbs for MS (give or take a pound based on manufactured weight).

I, \_\_\_\_\_ agree to the OAS equipment rules as stated in Chapter 4 of the OAS Handbook. I understand and agree the field Judge assigned to an OAS Event and/or Competition can at his/her discretion conduct an equipment inspection at any time. Disqualification may result if OAS equipment rules are not followed or if one refuses to comply with inspection.

**Coach Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_
